prince@princeministry.org

Greetings,

March 2012

Lots of blessings this month. A local game lodge is going to try and set up a regular delivery of food items for the Fold. We received an industrial mowing machine which is perfect for the larger fields. We still have our regular lawn mower for the smaller areas around the building. The industrial machine has a seat on wheels that gets pulled behind it. Looks like fun, maybe I'll (Micky) even take a turn on it. We've had a few phone calls and e-mails this month asking for banking details, so they can make a donation.

We also had a very large sliding gate donated by a local motorcycle group. They had been out to The Fold this past year a few times. Once to bring Christmas presents to the children, and to give them a ride on their motorcycles. The group will be coming out at some time in the future to install the gate. We will definitely have a photo to post of that event. Our current gate is very hard to manage at times, and one of the main supporting posts is broken. This will make life much easier getting in and out of the gate, and will help with our security.

Martin St Quintin from the UK has provided the Fold with an amazing opportunity. The Fold will be given a full page of photo's and info in the Gloucester Rugby Club's program for the last game of the season on 21 April. There will be 15,000 fans attending and the club will have helpers with buckets collecting at the gates of the game. Their local newspaper, which has a huge circulation has interviewed Martin and is going to run an article on The Fold. Because of this opportunity, we all dropped what we were doing and worked on the Fold's website, so it would be ready to be included in the program for the game. We are extremely happy to announce that the website is now up and running again. Check it out: www.thefold-sa.org If you have visited the site before, please remember to refresh your screen, to ensure you are viewing the new version. In addition, the Prince Ministry website has also just been updated. www.princeministry.org

School gets out the end of this month for a weeklong Easter break. We will be kept busy with the kids. They will get to have some fun, but will also be working on their studies with their tutor, as they are all behind in their education. We are still working on other options for their educational future.

The internet company decided to put their tower on a taller hill and have just received permission to install the tower. We are now waiting to hear when it will be installed. This is a huge need for us, not only for the ministry purposes, but we have not been able to talk to family since returning from furlough in early January.

Donations & correspondence can be sent to the following address: 200 Solley Dr, Winchester, MO 63021
Our South African address: P.O. Box 1265 Vaalwater 0530 South Africa

For those of you who met 15-year-old Abram or heard us talk about him during our furlough, we

wanted to let you know he died on 18 March. He left here just before Christmas and said he didn't want to come back. He actually had a history of doing that everywhere he went. He was a very sick child, and it was only a matter of time. Since the social worker could find no one else to take him, he stayed at the clinic where he was being helped. They were having staff rotate and spend the night with him at the clinic. It was actually better for Abram that way, since we weren't trained to handle his medical needs. During his time at the clinic, he not only had the benefit of trained care givers, but the doctor

brought him to Christ before he died. Abram's in a better place now and will be greatly missed by all who came in contact with him.

Our visitors last month had started the installation of a new piece of playground equipment. Paul with Big Lucky's help was able to finish the job, and the children just love it.

Prayer requests: Internet installation. Improved educational opportunities. Purchase of a van. Short and long term volunteers.

Praises: Rugby game opportunity. New front gate. The Fold website up and running. Our second children's house soon to be a reality. The interest we are having in regards to the Fold.

God bless,
Paul and Micky Prince
