prince@princeministry.org

Greetings,

April 2010

It's been an exciting and busy month. Hooray!!! We got the deed to the property one week before the builder started working. The builder has been working just over 3 weeks now. It is exciting to see all the changes going on, walls going up, plumbing installed, etc.

It was also a very frustrating month, due to the internet being down for almost a month. The phone company changed just about every part and wire between the house and who knows where. At one point they said the modem was broken, which resulted in two round trips to another town. One to get a new modem, and the other to return it when it was discovered there was nothing wrong with the modem. But we are finally back on line, and getting caught up on everything. Including posting video's on all the work at The Fold. We now have four video's documenting the work that was accomplished each week. For now we will post a video each week of what's been done. If you're a facebook fan, you get first shot at looking at the videos. If you're not a facebook "friend", consider signing up so you can see those video's as we post them. You can still check them out on the internet at the following links:

We had a meeting at our house led by 'A World Aware'. All the local ministries that plan to work with AWA this year, participated in the meeting. Afterwards, we had a potluck which included a Mopani worm casserole. Yummy. We've eaten a Mopani worm before and it wasn't that great, but in a casserole it wasn't half bad. I ate one, Paul ate four, and Michael had two helpings.

Donations & correspondence can be sent to the following address: 200 Solley Dr, Winchester, MO 63021
Our South African address: P.O. Box 1265 Vaalwater 0530 South Africa

Aaron and Jerusha ate one each. We have a video for that also, it's hilarious.

Aaron and Jerusha are a young American couple who came here to spend a year and a half and are helping other ministries. They spent this past Saturday working at the Fold. Aaron spent most of the day crammed into a tight space installing tongue and groove flooring over the top of three bedrooms in the children's home. The flooring will give us storage space in the home. This was a huge asset, as Paul and Harry are not spring chicken's anymore, and their poor bodies are really paying for all the work they have been doing. In an effort to promote working for one's earnings, they are providing laborers from Leseding to work at the property. This will be donated labor for us, as they are arranging funds so that the people can be paid. What a tremendous blessing they have been.

We have had quite a bit of rain this past month. Easter weekend was a major flood. Some friends couldn't even get to church, due to the bridge being under water. Easter weekend found us heading for Pretoria which was an adventure with all the rain. Friday saw a huge rainfall, and Saturday while traveling through the mountain pass, we encountered mud and rock slides on part of the road. Luckily we were able to get through and the mess was cleaned up by the time we returned that afternoon. We had gone to Pretoria to pick up a caravan (camper) which we got a great deal on for only \$1,000. It was a 1978 that had one owner and was in perfect condition. Using campers will be a lot cheaper than building houses for visitor's and volunteers to sleep in. We are keeping our eyes open for more opportunities like that one.

Paul and Emmanuel (our future house dad) went to the mighty men's conference about 10 hours from here. I think they had about 400,000 men camping for the weekend. They had a great weekend, and came back fired up.

Praises: We got the Deed!!!! Thank you God!!!

Prayer concerns: Completion of the children's home. Safety for all who work on it. Personal relationships of all who live and work on the property. Our future children.

God Bless you all for your interest in our ministry,

Paul and Micky Prince
