prince@princeministry.org

Greetings,

November 2013

Can't believe we've been in the States for 1 1/2 months already. The time is really flying as we visit with all of our friends and family. We've been able to attend our grandchildren's music performances and as we move into December, we'll see them in Christmas parades and probably a few other performances. This has created some special moments for us. We were also able to fly to Massachusetts and had a great visit with Paul's oldest son. As all our schedules allow, we'll be spending more time with Paul's other two children and the grandchildren.

We miss our children back at The Fold, but we also know they're in very good hands. The

Hayes family has been handling all issues that have come their way, and continues to keep The Fold running smoothly. This has been quite a blessing since our computer keeps crashing, and our ability to communicate with each other has been a problem. The children have been staying busy in our absence. School gets out the end of this month, so there are a lot of end of year activities such as a prize giving night where some of our students received rewards or recognition. The Hayes already have an end of school year cookout planned for the children. I'm sure everyone will enjoy that.

Our trivia night in St Louis was well attended with about \$3,000 being raised for next year's school fees. We really appreciate Micky's family and friends pulling together to set this event up while we're home on furlough. We spent four days in Kansas for the International Conference on Missions. We made a lot of new contacts. Some of them will be visiting us in South Africa this coming new year. We believe there were a number of "scouts" from various churches looking for organizations to support. We hope we made a good impression and will hear from some of them in the future.

Donations & correspondence can be sent to the following address: 200 Solley Dr, Winchester, MO 63021  
Our South African address: P.O. Box 1265 Vaalwater 0530 South Africa

We also had a lunch and auction at our home church. We had a great turnout and raised almost \$10,000. We are so appreciative of all the hard work from so many people at our church, and the many folks who turned out for the function. Even the quilting group of ladies at our church made us a handmade quilt to keep us warm on those cold winter nights in South Africa – it's beautiful.

We both had a lot of medical checkups this month with a few concerns. After all the tests and procedures were finished, it was determined that Paul is healthy and we're still waiting on one more test result for Micky.

For those who have been using Goodsearch and Goodshop, we really appreciate all your efforts. The yearly checks have just come out, and we received \$88. Please don't forget to use Goodshop for the rest of your holiday shopping this year.

Prayer requests: God to keep an eye on The Fold, no huge problems for the Hayes while we're away. The Hayes being successful in getting their South African driver's licenses. Teyani's eye lesion. Short and long term volunteers. Success in fundraising in the US.

Praises: Things are going well at The Fold. So far all the medical tests came back with good news. Our fundraising has been going well.

God bless,

Paul and Micky Prince
