

Greetings,

Oct 2023

The following information was shared from New Road Missions who are currently running the Fold: As God continues to grow our ministries in South Africa, we have some new developments to share with you. After many years of extremely successful ministry in South Africa with both the youth ministry and the children's home, our field directors, Jody and Kathy Adams, have decided it's time for them to move on and start their own youth ministry. We are extremely grateful for the many years they have served with New Road Missions and we celebrate the many lives that have been changed under their leadership. It has been a privilege serving with them, and we know God will continue to bless them as they follow His direction.

New Road Missions has hired Gerhard and Carmen Potgieter as the new directors of The Fold Children's Home. Gerhard comes to us with a wealth of experience overseeing children's care centers in 7 different African countries. Gerhard also ran his own construction company in South Africa for many years. Carmen recently retired from being a pharmacist in a large pharmacy chain in South Africa. Carmen also has many years of ministry experience as a volunteer in children's ministry and has a degree in theology. Please join us in welcoming Gerhard and Carmen to the NRM team.

We will be sharing more details about Gerhard and Carmen and the expansion plans we have for The Fold Children's Home next month. So please keep watch for these exciting announcements! Please pray for Jody and Kathy as they go back full time to their SALT ministry, and for Gerhard and Carmen as they take over The Fold.

There's not much to report from The Fold, they are busy with their last quarter of school and all the final exams that come with that. Moji sent some photos from the rural arthropod collection that his friend Khanyisile Khowa taught the older children. The older children tend to get more extras than the small children, Kaingo took the older kids on a game drive. Their guides were Zandele and Jolandie.

God bless, Paul and Micky Prince
